

A GAME OF PROPERTIES OF QUADRILATERALS

<div>FINISH!</div>						
						
						
	GO FOUR STEPS BACK		  			<div>START</div>

RULES OF THE GAME

- 1) This is a two player game
- 2) In this game there are two game pieces and a die. There will be two chances to roll a die. Now while starting if the die rolled by the player is less than 6 then only the player can start.
- 3) The game piece will be moved for the no. of steps as the die will show
- 4) Over here the piece will lie on any shape which can be trapezium, kite or parallelogram. The player, whose turn will come next, will ask any question related to the shape to the player who's playing.
- 5) And most importantly, HAVE FUN!!
